

Happy Friday Parents!

What a great first week we've had here at Plato! After our weekly trip to the library to check out some fiction and non-fiction books, we decided to kick off our exploration with cars and I can see the wheels turning already

We took our thoughts to our journals and wrote how we think a car works and also designed our own today. Next week, we will be building our cars and racing them on our ramps and pathways!

We have a new tree for our year long exploration and it's right outside our window! I asked the class rather than just drawing their illustration, to challenge themselves and create a 3D picture. They look AWESOME! Come take a look next week:)

We love show and tell and it's very beneficial to both the presenter, as well as the audience. If your child has something related to our exploration that they would like to bring in and educate us about, please allow them to! Also, did your child tell you about their job interviews yesterday? Ask them which position they interviewed for!

Lastly, our first book orders were sent home today in your child's folder (please send folders back on Monday). They will be due by next Friday, August 31st. The link to sign-up your child and/or place your order is <http://clubs.scholastic.com> and our class code is MRX4Z.

Reminders:

- Uniforms: M/W/F=gym uniforms, Tu/Th=dress uniform. Please make sure your child is always wearing gym shoes on gym days and if not on Tuesday's and Thursday's, they must be in closed toed and comfortable shoes. We run a lot!
- Snack: We want to promote healthy eating choices and habits at Plato. Please make sure your child has a healthy, nut-free food for their morning snack.
- Please send a reusable water bottle with your child's name written on it.

That's all for now-have a wonderful weekend and feel free to contact me with any questions/concerns/comments:)

-Ms. Anna
